

## Spring 2011 MontCAS Global Test-Taking Tips

- Show what you know. Answer the questions you are sure of first and go back to others.
- Keep working until you reach the “Stop” sign for the session. It is located on the bottom-right corner of the page in both the test booklet and answer booklet. Do not go beyond the “Stop” sign.
- When you finish a test session, you may check your work in that session only.
- Place your answer booklet inside your test booklet. You may read silently until the next test session.
- Read each question carefully.
- For constructed-response questions, make sure your work fits in the space provided. You may use scratch paper as a draft for your response.
- Mark the answer to each multiple choice question by filling in the correct bubble in your answer booklet.
- Check to see if you are answering the question in the right place.
- You may underline or use a highlighter in the test booklet but not in the answer booklet.

- Enjoy!
